- 4 Rural Organizations Between 1950 and 1972/ 30**
- 5 Rural Organizations Formed Under the New Society/ 67**
- 6 Some General Conclusions/ 90**

Appendices

- A. Tables to Accompany Text/ 93**
- B. Figures to Accompany Text/ 110**
- C. Project Staff/ 114**

Notes/ 115

Bibliography/ 116

List of Tables

- 1. Gross national product, CY 1960-74/ 93**
- 2. Labor force, participation rate, employment status, urban and rural: 1960-74 (Number of persons in the labor force in thousands) / 94**

3. Allocation of national accounts income data by type of income, 1961-71 (Percentages)/ 95
4. Indicators of income distribution: total, rural and urban, 1961, 1965 and 1971/ 96
5. Imports, total, capital goods and raw materials and intermediate goods/ 97
6. Output and productivity growth in agriculture and other rural subsectors (at constant 1967 prices in million pesos)/ 98-99
7. Net milled rice imports of the Philippines (Thousand metric tons) / 100
8. Rice (paddy) and maize yields in some Asian countries (in 100 kg per hectares)/ 101
9. Comparative economic characteristics of agriculture, by region / 102
10. Regional income levels, 1971/ 103
11. Distribution of farms by major crop and size (Percentage composition)/ 104
12. Ratios of physicians, nurses, midwives, sanitary inspectors to urban-rural population/ 105
13. RHU sub-center distribution region, barrio and ratio, Philippines, 1973/ 106
14. Infant mortality rate, Philippines: 1951-1972/ 107
15. Infant mortality rate, Philippines, regional and urban-rural location: 1973/ 108
16. Life expectancy at birth, Philippines, regional and urban-rural location: 1973/ 109

List of Figures

1. Pambansang Katipunan ng mga Barangay
Organizational chart and linkages / 110
2. The Sangguniang Bayan structure / 111
3. The Philippine cooperatives system (1981 projected organizational structure) / 112-113

II. RURAL ORGANIZATIONS AND RURAL DEVELOPMENT IN THE PHILIPPINES: A FIELD STUDY

Cristina Montiel

Chapters

- 1 The Development Issue/ 127
- 2 Methodology/ 132
- 3 Characteristics of Rural Organizations/ 147
- 4 Developmental Functions of Rural Organizations/ 173
- 5 Relationship Between Characteristics and Developmental Functions of Rural Organizations/ 187
- 6 Summary and Evaluation of Research/ 190

Appendices

- A. Tables to Accompany Text/ 194
- B. Project Staff/ 218

Notes/ 220

Bibliography/ 221

List of Tables

1. Proportion of leader/member sample size to sample universe population size/ 194
2. Summary of sampling results: barrio sites, organizations and the sampling sizes for each type of respondent within each barrio (Nueva Ecija, January-February 1977)/ 195
3. Criteria for measuring autonomy/ 196
4. Autonomy scores of sample organizations (Nueva Ecija, January-February 1977)/ 197
5. Criteria for measuring linkage/ 198
6. Respondents by perceived motivation behind absence of organizational linkage with other local groups (Nueva Ecija, January-February 1977)/ 199
7. Respondents by government agency to which they and/or their relatives are affiliated (Nueva Ecija, January-February 1977)/ 200

8. Respondents by government positions occupied by them and/or relatives (Nueva Ecija, January-February 1977)/ 201
9. Criteria for measuring participation/ 202
10. Participation scores of sample organizations (Nueva Ecija, January-February 1977)/ 203
11. Leader-respondents by perceived ways in which organization has affected them (Nueva Ecija, January-February 1977)/ 204
12. Member-respondents by perceived ways in which organization has affected them (Nueva Ecija, January-February 1977)/ 204
13. Criteria for assessing differences in socioeconomic status between leaders and members/ 205
14. Scores of sample organizations on presence of better-off leaders in the group (Nueva Ecija, January-February 1977)/ 206
15. Proportion of leaders and members born within and outside of Nueva Ecija (Nueva Ecija, January-February 1977)/ 206
16. Proportion of government and private group leaders born within and outside of Nueva Ecija (Nueva Ecija, January-February 1977) / 207
17. Respondents by perceived factors that block their organization's effectiveness (Nueva Ecija, January-February 1977)/ 207
18. Respondents by suggested steps that could be taken to make their organization effective (Nueva Ecija, January-February 1977)/ 208
19. Criteria for assessing the sample organizations' financial capability / 208
20. Respondents by perceived causes of difficulties in obtaining funds (Nueva Ecija, January-February 1977)/ 209
21. Criteria for measuring degree of success in mobilizing support within the rural community/ 210
22. Scores of sample organizations on success in mobilizing support within the rural community (Nueva Ecija, January-February 1977) / 211
23. Respondents by perceived types of organizational projects where the barrio people participated as co-implementors (Nueva Ecija, January-February 1977)/ 211
24. Respondents by perceived types of organizational favors received from local government offices (Nueva Ecija, January-February 1977)/ 212
25. Criteria for measuring degree of success in articulating and processing local needs and demands/ 213

26. Scores of sample organizations on success in articulating and processing local needs and demands (Nueva Ecija, January-February 1977)/ 214
27. Respondents by perceived major barrio problems (Nueva Ecija, January-February 1977)/ 214
28. Respondents by perception of what the barrio people wanted the organization to do about local problems (Nueva Ecija, January-February 1977)/ 215
29. Respondents by perceived function of their organization within the community (Nueva Ecija, January-February 1977)/ 215
30. Criteria for measuring the degree of success in developing two-way communications within the barrio/ 216
31. Criteria for measuring the success of the organization in facilitating delivery of services/ 216
32. Correlations between characteristics and development-function variables, N=8 (Nueva Ecija, January-February 1977)/ 217

List of Figures

1. A conceptual design of the study/ 133
2. Exchange dynamics: perceived costs and benefits of the organization's linkage with external influential entities/ 150
3. Different types of organizational linkages covered by the research / 153
4. Exchange dynamics: perceived costs and benefits of participating in one's organization/ 160
5. Network of relationships between indicators which measure the level of socioeconomic status/ 164
6. The motivation model applied to the rural organization's functions and activities/ 178
7. The rural organization's role in the barrio communication process / 181
