

## NOTES

<sup>1</sup>A Certificate of Land Transfer is issued to a tenant-beneficiary of land reform as a preliminary indicator of his ownership of the land.

<sup>2</sup>The names of persons, private organizations investigated, and the specific research sites have been changed to safeguard their identities and preserve the confidential nature of much of the data presented in this report.

<sup>3</sup>All Tables cited in the text are found in Appendix A.

<sup>4</sup>Efforts were made to solicit the opinions of some government workers and non-members. However, the researchers could not give full validity to the results of these mini-surveys because of their small sample size (for nonmember survey) and the relative detachment of the respondents from the issue on rural organizations (for government workers survey).

<sup>5</sup>Formerly the Department of Health (DOH) at the time of the survey.

<sup>6</sup>Formerly the Department of Local Government and Community Development (DLGCD) at the time of the survey.
