

Philippine Statistical Association (PSA)
(Affiliated with the International Statistical Institute)

The PSA was organized in 1953 to promote the development of the statistical profession in the country and the improvement of statistics in all relevant fields of scientific applications. Membership in the Association therefore, while selective, is not limited only to professional statisticians but is also open to all kinds of professionals in various disciplines and institutions with serious interest in the sound application and use of statistical methods or theories in these fields.

The **Philippine Statistician** is the official journal of the PSA. It aims to publish a wide range of papers of technical, theoretical or applied statistical nature and considered of general or special interest to varied groups of statisticians.

Manuscripts submitted to the **Philippine Statistician** must neither have been published or are being elsewhere considered for publication. They will be referred. Two well-typed and complete copies should be sent to the Editor, **Philippine Statistician** Philippine Social Science Council/Commonwealth Avenue, Diliman/Quezon City, Metro Manila.
